

**Dear Manager,**

Dear Manager ,

I am writing to express my keen interest in the Fullstack Developer internship opportunity advertised on ErasmusIntern website. My background in Python and backend development, coupled with my passion for mitigating climate change, makes me a strong candidate for this position.

I am highly motivated by the prospect of applying my skills to a project that directly contributes to a sustainable future. The opportunity to work with an international team of passionate individuals, particularly those with expertise in AI, data science, and sustainability, aligns perfectly with my desire to learn and collaborate in a dynamic environment.

While my primary focus has been on backend development, I am eager to expand my skillset by contributing to the design and creation of user-friendly applications. I am a fast learner and confident in my ability to upskill alongside my colleagues, especially with the support of an experienced sustainability consultant and Python developer.

My experience with has further fueled my interest in AI-powered solutions for environmental challenges. I am eager to learn more about its potential application in the agricultural sector, particularly in reducing reliance on synthetic products.

I am particularly drawn to the opportunity to develop valuable skills in communication, partnership building, and project management within a multinational team. Working "bottom up" and contributing to the team's success through suggestions and a well-defined work pattern aligns perfectly with my desire to build professional autonomy and a strong work ethic.

In addition to the skills mentioned in the job description, I am also confident in my ability to contribute to the project's success through my:

- Innovation Management Skills
- International Development awareness
- Research skills

I have attached my portfolio for your review, which showcases my previous projects and coding abilities. I am eager to learn more about the specific challenges faced by farmers and how AI can be leveraged to achieve a more sustainable future.

I am available for an interview at your earliest convenience.

Sincerely,

Beril Akyıldız
